Organizational Services

AllOne Health has redefined the traditional EAP concept by offering strategic management solutions including supervisor referrals, conflict resolution, crisis support, peer support facilitation, a diverse training program and organizational development, which can benefit the entire organization.

The Basalt Chamber of Commerce has partnered with AllOne Health (EAP) to provide members a discounted rate for comprehensive employee assistance program services for employees and their families.

What is an EAP?

An employee assistance program supports the mental health of your employees by offering free, confidential short-term counseling. Highly qualified counselors can assist employees and their families as they navigate personal hardships or work-related challenges.
